## INDUSTRIAL VISIT

Industrial visit to Jaipur- Kishangarh- Ahmedabad proved to be an enlightening journey into the heart of the manufacturing, service and distribution sector.

Set against the backdrop of Jaipur's vibrant cultural tapestry, the visit aimed to bridge the gap between classroom learning and real-world applications. The journey kicked off with meticulous preparations, where we immersed ourselves in understanding the intricacies of the companies we were to visit.

The anticipation was palpable as we set foot in Jaipur, a city known not just for its historical charm but increasingly as a hub for cutting-edge industries.

Over the course of 6 days, we delved into the operations of leading companies like BMVSS Jaipur Foot, Shreenath Marbles and Kishangarh Marble Association. Each visit was a unique exploration, revealing the secrets behind manufacturing processes, innovative technologies, and sustainable practices.

One of the highlights was the opportunity to interact with industry professionals who generously shared their experiences and offered invaluable advice. These interactions went beyond the boardrooms, providing us with a glimpse into the real-world challenges and triumphs of professionals in the manufacturing and service sector.
